

"Christmas rubbish"

After Christmas, there is often a lot of paper waste and a withered spruce over. Please add Christmas paper in ordinary bags for household garbage and tie together before throwing in the vacuum cleaner.

It is completely unnecessary with stops in the garbage system due to paper. Each stop costs money to fix. After the weekends, your Christmas tree must not be thrown out of the balcony or left on the yards. You are responsible for ensuring that it ends up in a recycling center.

Fire alarm

During the fall, it's time to change the battery in your smoke alarm. A smoke alarm can save both life and property, so make sure it works by testing it once a quarter!

Fireworks

Keep in mind that the rules for fireworks have been tightened. Show consideration for your neighbors and animals by not using pyrotechnics in our area.

Live candles

Now that darkness is creeping in earlier in the evenings and Christmas is approaching, many candles are lit to raise the mood. Remember to extinguish them before leaving the room so we avoid fire accidents.

Merry Christmas and a Happy New Year we on the board wish all of you members!
