Mandatory ventilation inspection

We would like to thank all of you who ensured that Flexibel could come in and carry out the inspections in our apartments. It is a legal requirement, and we ensure that our ventilation works as it should, a benefit for everyone.

There are some that remain and it is very important that you let the technicians in.

If they do not get access in the way that the association is entitled to, the resident will be invoiced for the extra costs that arise.

Grilling

Keep in mind that a barbecue must be at least five meters from the facade and have adequate extinguishing equipment available in case of an accident.

Cleaning day

Thanks to everyone who defied the weather and helped rake sandboxes, pick up trash under the subway, and more. Now our area is ready for the spring. It was also nice that so many people visited the fika that the Recreation Committee set up in the board room.

We can also state that approx. 50 m³ of rubbish was once again collected in two containers. We are looking at the possibility of running an extra occasion at the end of the summer with only containers, for those who need to get rid of stuff before the fall.

Annual meeting and pre-meeting

Soon it is time for the association's annual meeting. On Thursday, May 23, we gather at 18:30 in Kvarnbackaskolan's dining hall.

The week before, on Thursday May 16th, we have a pre-meeting in the board room where you have the opportunity to ask questions to the board. This is so that the annual meeting itself can focus on the financial issues and the elections.

The election committee only proposes one change regarding the association's elected officials, and it is one person in the leisure committee who is not running for re-election.

Show consideration

Now that the weather is getting better, many people are using their patios and balconies. Remember to show consideration later in the evening, even if you are having a good time, you can lower the voices a little.

Renovation

If you want to carry out a renovation, read what applies to you on our website and submit an application before you start.
