

January 2025 | Distributor: The Fanö board | en.fano.se | styrelsen@fano.se

Geothermal heating

Just before Christmas, the board made the decision to invest in geothermal heating in the association. One major cost we have is heating and with this investment, we see great opportunities to reduce these costs over time.

The plan is for drilling and installation to take place during the summer and for us to put the facility into operation in the fall. However, it all depends on whether the authorities approve our application for a drilling permit.

More information will come when we know that the project will go forward.

Annual meeting

A new year means that it is once again time for a new annual meeting. This year's meeting will take place on Monday, May 26th. A notice with an agenda will be sent closer to the date. We would like to remind you that motions must be submitted to the board in writing no later than February 28th.

Wednesday coffee

After a short Christmas break, Wednesday coffee started again on January 8th and will continue for even weeks. Welcome at 18:00 for some coffee and socializing with other residents in the association.

Greetings from the leisure committee.

Stairwells

We would like to remind you not to let unauthorized people into the stairwells.

If it is someone you do not recognize, ask, for example, who they are visiting.

OVK

The work with the OVK is slowly but surely progressing. All deficiencies are being addressed and we hope to be able to carry out the adjustment, which is the last step, in February-March.

Website

You can find our website at en.fano.se. There is a lot of useful information and answers to some of the questions we receive in the board email.

For example, there is information about what applies if you want to renovate or do work in your apartment.

<https://en.fano.se/renovation/>

There is also basic information about what it means to live in a tenant-owned apartment.

<https://en.fano.se/forms-statutes-and-annual-reports/> (To live in BRF Fanö)
